

News Studio Highlights

- **Day chronology** [edit here in newsroom, card readers on top of each PC, record voice in VO booths, use ISIS to store/share video, watch noon shows, rundown filled out by 1pm mtg (fully filled out) 4 copies of rundown/scripts (unless using iPads), directors marking by 2pm]
- **Watch WSYR9, WTVH** local news live at 12 noon – recorded automatically in Snapstream -
- **Snapstream:** snapstream.syr.edu (choose LIBRARY, use .mp4 recordings) use your NetID
- **CNN Newsource** (website) newsource.cnn.com user: SCU, password: mint
 - Download **HD 1080i NTSC** format
- **Xpression Graphics:** to add to story, rt-click MOS icon in ENPS.
 - Make sure NCC News is selected as the **SHOW**.
 - **All Images and videos used in graphics MUST reside in CLASS FILES>GRAPHICS** (videos can stay in the VIDEOS subfolder.) Do NOT rename or move the image/videos once the graphic has been created!
- **Make sure you enter text and choose images in the CENTER area of xPressions**
 - **Color-coded MOS commands: generally** in alphabetical color order: **BLUE...BROWN...GREEN** (see **OVERDRIVE HANDOUT**)
- **NXMB Video Server:** rt-click MOS icon in ENPS ... click **ALL MEDIA** tab ... right-click **REFRESH** to see list of all videos in the server. Drag edited videos into top of story to add to story,
- **NCC News** Online as filetape?
- **Premiere:** edit using the BDJ Class Preset CC 2015 generic project; download the BDJ NEWSROOM EXPORT PRESET SERVER (MXF) and Newscast OTS Video 2018 AVI (AVI) export presets from CLASS FILES>UNIVERSAL TEMPLATES; **VO: audio at -30db** on the side. Filename should be **6 digit date plus rundown slug and segment plus 4p or 445p**. Max characters 32 in filename = **012815 City Hall Budget SOTVO 4p** *Do not use any characters but letters and numbers in a filename! No weird characters like punctuation, !@.#\$%&, etc.*
- **FTP video to server:** check file first using **Media Info** (Media Info FOLDER must be copied from CLASS FILES>APPLICATIONS to a folder on your Desktop called APPS-SU - run Media Info from the APPS-SU folder, NOT in CLASS FILES!)
 - Make sure your video shares the following settings:
 - CONTAINER AND GENERAL INFO: **MXF (OP-1a) (XDCAM HD422)**
 - 1 VIDEO STREAM: **MPEG Video**
 - 2 AUDIO STREAMS: **PCM/PCM**
- Use **FILEZILLA** to send video to server:
 - Open the ftp program FILEZILLA (type FILEZILLA into the Windows search box); suggest you drag it to your taskbar to create a permanent shortcut
 - Click the icon under FILE to Open the Site Manager
 - Click on NEW SITE

- o Find the file you want to upload in the folder where you saved it on your external drive by drilling through the folders **on the left (LOCAL SITE)**
- o When you find it, just drag and drop it across onto the right pane of the server into the correct root folder, just under REMOTE SITE

- ISIS login
- Dejero
- Touchscreen
