

LIVEU

1. Turn on the camera, plug in microphone and set up as normal.
2. Plug the SDI cable into the back of the camera (camera rear, right side, upper-left) and into the side of the LiveU unit (see image, silver SDI IN)

3. Turn the **LIVEU** unit on: press and hold the Power/Play button for about two seconds.
4. On the **LIVEU** unit, press the JOG wheel and scroll to **Channels**, press the JOG wheel again, and scroll down to the channel you have been assigned (LIVEU_5, LIVEU_6, LIVEU_7, LIVEU_8). Press the JOG wheel again and then the return arrow.
5. Press the Play button on the **LIVEU** unit (screen says **Ready**), then press it again to go live (screen says **Streaming**)
6. To stop streaming, double-press the Play button (twice within 2 seconds)
7. To POWER OFF, press and hold the Play button for 5 seconds to turn off the **LIVEU** unit

Connecting to WiFi

If you are in a WiFi zone, connect to it:

- Navigate to the **Interfaces** option in the Main screen using the JOG.
- Select WiFi>Select Network. The unit scans and displays the available networks. NOTE: To rescan, press Scan.
- Select a network and press the JOG button to connect.

NOTE: For encrypted networks, select the network, press Connect, enter the network password using the virtual keyboard, as shown below, and then press Done.

Recording Video on the LiveU Unit to Send Back

To select **STORE & FORWARD** mode:

1. Navigate to the Mode option in the Main screen using the JOG. It's normally in LIVE mode.
2. Press the JOG button, and scroll down to select **Store & Forward** (press the JOG button to select it. The selected mode is indicated by a checkmark.)
3. Now add a prefix (or file name) that represents you, probably your **LAST NAME**:
 - a. Use the JOG to scroll down to and select **SETTINGS**
 - b. Scroll down to and select **STORE SETTINGS**
 - c. Select **PREFIX**
 - d. Use the virtual keyboard to type your last name, and select **DONE** when finished
 - e. Under **TARGET STORAGE**, make sure **SD CARD** is selected
 - f. Press the **BACK** button three times to return to the main screen (where you can see your camera shot)
4. Press the **PLAY** button to start recording the video on the LiveU unit
5. To **STOP** recording the video, press the **PLAY** button again (twice); LiveU returns to **READY** mode, and automatically **FORWARDS** (sends) the file to our server
6. Tell the base when you're done, and someone in the studio can retrieve the file from the LiveU server
